SUMMARY

Motivated and detail-oriented MCA student with knowledge of Java, Web Development, Database Management, and Software Engineering. Seeking an opportunity to apply technical skills and gain practical experience in software development and IT industries.

PROJECTS

EduBridge – Online Learning Platform

- Developed a full-stack educational platform for students and teachers.
- Implemented login and registration using Java Spring Boot.
- Added course management and student dashboard features.
- Used MySQL database for backend storage.

E-Commerce Website

- Created a responsive shopping website with product listing and cart functionality.
- Designed modern UI using React.js and CSS.
- Integrated product filtering and authentication system.
